Cannabis Flower 420 Bud Other Mary Jane Other Mct

**Infusion Directions:**

Decarbo

00:40:00 245 °F Activate

420 Weight MCT Oil Infusion

Cannabis (THC or CBD) Infused MCT Oil

03:00:00 200 °F Infuse

**Recipe Ingredients:**

10 grams of 420 1 Cup MCT Oil

**Recipe Directions:**

Step one: Take 10 g of your favorite flower decarb. for 40 minutes at 240°. Step two: Take out the power pod, An insert a French press mesh screen in the bottom. Step three: Place the magnetic stir on top of the screen in the center. Now take the herb out of the pod and pour it directly in to the pot. Step four: Place one cup of MCT oil on the top of your 420. Step five: Change mode to infuse and set for 2.5 to 3.5hours Step six: Place your measuring cup on the mirror finish base and then push the dispense button. NOTE: you can use a pestle to push down the herb while pressing the dispense button for additional yield and possibly increase the potency. BUT at the same time you increase the chances of getting herbs in your dispensed oil.
