PRODUCT INFORMATION

Organic BioLink Iron Fertilizer 6% Fe consists of complexed amino acids which improve availability and uptake by plants. The product provides a quick boost to plants under nutrient stress and corrects iron deficiencies. Iron is an essential element for the development of chlorophyll. Plants experiencing iron deficiency show symptoms of interveinal chlorosis, which is characterized by leaves that are yellow or yellowish white with veins that remain green.

Organic BioLink Iron Fertilizer 6% Fe is suitable for use in organic food and fiber production where micronutrient deficiencies are present.

DIRECTIONS FOR USE

SHAKE VIGOROUSLY BEFORE USING. Due to the organic nature of the product some settling may occur.

Organic BioLink Iron Fertilizer 6% Fe can be applied to all crops including fruit trees, vines, tree nuts, fruits and vegetables, field and row crops, ornamental trees, shrubs and flowers, containerized plants, and turf.

Organic BioLink Iron Fertilizer 6% Fe can be applied effectively through all types of chemigation, ground, and aerial application equipment. Use sufficient water for thorough and uniform coverage.

Foliar Application: ½ to 1 quart per acre. Apply to plant foliage to the point of run-off throughout the growing season as needed.

Soil Application: 1 to 3 quarts per acre. Apply in irrigation water, including drip and sprinklers.

Nursery & Container: 8 oz per 100 gallons of water. Apply to plant foliage to the point of run-off or as a soil drench. Repeat applications as needed.

WARNING: Perform a phytotoxicity test on a small plot before large-scale application. To lower the risk of phytotoxicity, applications should be made early morning or late evening.

Compatibility: Always conduct a compatibility jar test before mixing **Organic BioLink Iron Fertilizer 6% Fe** with new products.

Use best management and cultural practices when applying **Organic BioLink Iron Fertilizer 6% Fe**. Use additional fertilizers as needed based on soil and tissue testing.
